

# Call for Papers

## General Co-Chairs

Tomohiro Otani, KDDI  
Research, Inc., Japan

Yoshiaki Kakuda,  
Hiroshima City University,  
Japan

## Program Chair

Junichi Funasaka,  
Hiroshima City University,  
Japan

## Vice Program Chairs

Eiji Utsunomiya, KDDI  
Research, Inc., Japan

Elisa Bertino, Purdue  
University, U.S.A.

Felicita Di Giandomenico,  
ISTI-CNR, Italy

## Program Committee

Masaki Aida, Tokyo  
Metropolitan University,  
Japan

Antonio Casimiro, Univ. of  
Lisbon, Portugal

Shuo Chen, Microsoft, USA

Jorge Cobb, The University  
of Texas at Dallas, USA

Aniruddha Gokhale,  
Vanderbilt University, USA

Anatoliy Gorbenko, Leeds  
Beckett Univ., UK

Yoshifumi Manabe,  
Kogakuin University, Japan

Giulio Masetti, ISTI-CNR,  
Italy

Yutaka Miyake, KDDI  
Research, Inc., Japan

Yukikazu Nakamoto,  
University of Hyogo, Japan

Harigovind Ramasamy,  
IBM, USA

Tatsuhiko Tsuchiya, Osaka  
University, Japan

Yufeng Wang, Nanjing  
University of Posts and  
Telecommunications, China

Katinka Wolter, FU Berlin,  
Germany

## The Nineteenth International Workshop on Assurance in Distributed Systems and Networks (ADSN 2021)

Calgary, Canada, October 25 - 28, 2021

ADSN 2021 will be held in conjunction with the 19th IEEE International Conference on Dependable, Autonomic and Secure Computing (DASC 2021), Calgary, Canada, October 25 – 28, 2021. (see for details <http://cyber-science.org/2021/dasc/>).

ADSN 2021 is the nineteenth edition of this International Workshop demonstrating its long-term continuity and continuously received recognition. The objective of the Workshop is to provide an effective forum for original scientific and engineering advances in Assurance in Distributed Systems and Networks. Along with recent rapid growth of the Internet and ubiquitous networks, applications for autonomous decentralized systems are emerging in many important areas like transportation, automotive systems, smart energy grids and the Internet of Things (IoT) to name a few. In these distributed systems and networks, heterogeneous requirements are independently generated and the requirements themselves are frequently changing. Assurance in these distributed systems and networks is defined as capability of guaranteeing functional and non-functional system properties such as dependability, security, timeliness and adaptability in heterogeneous and changing environments. The workshop theme is critical in meeting ever more demanding requirements for assurance in systems and networks. Technologies supporting assurance including integration of various fields such as real time, fault tolerance, autonomy, mobility and intelligence will have to be incorporated in complex distributed systems and networks.

Topics of interest for this workshop include, but are not limited to:

- Assurance technologies for new generation networks
- Assurance in cooperative embedded, grid, and cloud computing systems
- Assurance in service-oriented and web-service based computing systems
- Critical infrastructure protection
- Heterogeneous systems coexistence and consistency technologies
- Network control (QoS, QoE, CoS, etc) technologies for assurance
- Self-stabilization and sensor networks assurance
- Agents technologies for assurance
- Assurance in safety-critical automotive and avionic systems
- Software and hardware technologies for assurance in intelligent transportation systems, train control, and space computers
- System life-cycle assurance in specification, design, implementation, testing, verification, and validation
- Assurance in IoT systems
- Security technologies for assurance
- System management and proactive fault management technologies for assurance
- Technologies for achieving high assurance in complex systems

## Papers and Submissions

Papers must be written in English, and they have to be Postscript, PDF, or Word format. The complete manuscript should be no more than 6 pages [following IEEE conference proceedings style and guidelines](#). The following information must be provided on a cover sheet:

- (1) paper title, full name, affiliation of the author(s)
- (2) full name, affiliation, complete address, phone and fax numbers and email address of the author to be contacted, as well as
- (3) an abstract (up to 150 words).

All paper submissions will be handled electronically by the EDAS system.  
<https://edas.info/newPaper.php?c=28323&track=106237>

## Important Dates

Paper Submission Deadline: July 10, 2021

Acceptance Notification Date: August 10, 2021

Camera-ready deadline: August 20, 2021
